

Grade	Criteria
A	<ul style="list-style-type: none"> -Student covers at least 75% of the drawing paper in a design (small amount of white paper showing). -Student uses at least 5 different sized circles. -Circle are drawn perfectly (are not uneven). -Student uses at least 3 different patterns in the design. -Student used 5 or more colors. If the student used black or white, the black is fully shaded .
B	<ul style="list-style-type: none"> -Student covers at least 75% of the drawing paper in a design (small amount of white paper showing). -Student uses at least 3 different sized circles. -Circle are drawn perfectly (are not uneven). -Student uses at least 3 different patterns in the design. -Student used 4 or more colors. If the student used black or white, the black is fully shaded .
C	<ul style="list-style-type: none"> -Student covers at least 75% of the drawing paper in a design (small amount of white paper showing). -Student uses at least 2 different sized circles. -Circle are drawn perfectly (are not uneven). -Student uses at least 2 different patterns in the design. -Student used 3 or more colors. If the student used black or white, the black is fully shaded.
D	<ul style="list-style-type: none"> -Student covers LESS than 75% of the drawing paper but more than 50% of the paper in a design (large amount of white paper showing). -Student uses 2 different sized circles. -Circles are not drawn perfectly (are uneven). -Student uses 2 different patterns in the design. -Student used 2 colors. If the student used black or white, the black is NOT fully shaded
F	<ul style="list-style-type: none"> -Student covers 50% or less of the drawing paper in a design (large amount of white paper showing). -Student uses 2 different sized circles. -Circles are not drawn perfectly (are uneven).

	<ul style="list-style-type: none">-Student uses at least 2 different patterns in the design.-Student used 2 colors. If the student used black or white, the black is NOT fully shaded
